

QUICK TMS

Developed for Windows

Quick TMS (Time Management System) has been engineered to satisfy both simple & complex attendance monitoring including 24-hours rotating shift environment.

It provides extensive facilities to allow definition of employee working patterns using Time Zone logic control. Exceptions on employee's expected working hours are highlighted, including lateness, early leaving, unapproved overtime and absence. Payable hours are calculated and finally transferred to QUICK PAY - Payroll system.

A Simplified Time & Attendance Management System...

QUICK TMS integrates with Quick Pay payroll, with capabilities of processing swipe records from popular bar-code time clocks, proximity Touch-n-Go clocks, Hand-Punch and Finger-Print devices...

QUICK TMS - Time Management System

A Simplified Employee Attendance management system...

Step 1 of 4

From **SELECT PERIOD**, choose the current processing Period. For example, November 1998.

Step 2 of 4

From **EMPLOYEE MASTER**, update employees' personal particulars. For example, working section, hire date, resign date, access card number, etc.

Step 3 of 4

Execute **DATA POLLING**. Data polling will collect employee daily swipe records from hardware time-clocks.

Step 4 of 4

Execute **PROCESS DATA**. This will intelligently translate employee daily attendance records into hours worked, overtime hours, lateness, etc.

After completing the monthly steps, you may proceed to generate management attendance reports and also export final result to your payroll system ...
